1. Enforcement

- 1.1 The Manual comes into force from the 2015/2016 sporting season for the granting of the Licence necessary for the participation in the UEFA competitions of the 2016/2017 sporting season. The Manual will remain in force until a new version of it will be approved.

It cannot be amended during the licensing process, unless duly approved by UEFA.

2. General Principles

- 2.1 In accordance with the Statutes of FIGC and the NOIF, clubs will only be admitted to participate in UEFA competitions if, in addition to having acquired the necessary sporting title, they have also been granted the Licence, subject to the exception of art. 7.

- 2.2 The Licence is a certification granted by FIGC confirming the fulfillment by the Licence applicant of all requirements of the Licensing system as part of the admission procedure to the UEFA Competitions. The final decision on the admission to the UEFA Competitions falls solely within the jurisdiction of UEFA.

- 2.3 The Manual contains the criteria and procedures which the Licence applicants are obliged to comply with in order to obtain the Licence.

The Manual has been written in compliance with the principles established in the "UEFA Club Licensing and Financial Fair Play Regulations" (Edition 2015), Part II, which was approved by the Executive Committee of UEFA on 29 June 2015.

- 2.4 The Manual is issued in English and Italian.
In the event of any discrepancy in interpretation, the English version, reviewed by UEFA, is the authoritative text.

- 2.5 The Licence applicant must be a duly incorporated football club which, at the start of the Licence season, has attained at least three consecutive years affiliation to the FIGC and which is entitled to participate to club competitions recognised by FIGC at national and international level. To this end, any club operation performed in this three-year period designed to bypass rules on sporting merit and/or rules for obtaining the Licence shall be deemed as an interruption of the membership period¹.

The Licence applicant is responsible for the:

- a) transmission to the Licensing and FFP Office of the documentation necessary in order to prove the fulfilment of the criteria provided for by the Manual;
- b) transmission to the Licensing and FFP Office of all the information requested in order to assess the fulfilment of the criteria provided for by the Manual;
- c) prompt notification to the Licensing and FFP Office of any significant change or variation pertinent to the requirements provided for by the Manual, in respect of the situation previously indicated to the Licensing and FFP Office (e.g. legal form, legal group structure, renewal of contracts, company structure, Stadium capacity, etc.).

¹ The UEFA Administration may grant an exception on this matter to the individual club applying for the Licence. For more details on the exception policy and on the process, please refer to Annex I of the UEFA Club Licensing and Financial Fair Play Regulations (Edition 2015).

ITALIAN CLUB LICENSING MANUAL - EDITION 2015

- 2.6** The Licence must be applied for by all clubs enrolled in the Serie A championship and it may be applied for by any club enrolled in the Serie B championship.
- 2.7** If a club qualifies for a UEFA competition by virtue of the UEFA Fair Play competition, it will only be allowed to participate in such competition if it has been granted a Licence.
- 2.8** The Licence is granted by the FIGC, on the basis of this Manual and of the regulations imposed by UEFA, and is valid for one sporting season only.
- 2.9** The Licence applicant accepts the provisions of the Manual, and in particular it is obliged to:
- accept the compliance audits and/or inspections ordered by UEFA and/or the competent Licensing bodies before and after the granting of the Licence;
 - accept the disciplinary sanctions imposed by the competent bodies as provided for by the Manual;
 - accept the decisions of the Licensing bodies;
 - accept the jurisdiction of the *Organo Arbitrale delle Licenze UEFA* to settle any controversy regarding the interpretation and application of the Manual in relation to the refusal or withdrawal of the Licence;

- 2.10** All licensees that have qualified for a UEFA competition are subject to a monitoring process on the part of UEFA and are required to comply with the provisions as per “UEFA Club Licensing and Financial Fair Play Regulations” (Edition 2015), Part III.
- 2.11** The objectives of the Licensing system are:
- the promotion and the improvement of the level of all aspects of European football;
 - the promotion of training and education of young players in every club;
 - the achievement of an adequate level of management and organisation of football clubs;
 - the improvement of sporting infrastructure, with particular attention to safety conditions and the quality of spectator and media facilities;
 - the improvement of the economic and financial capabilities of football clubs, increasing their transparency and credibility for the benefit of the whole of football;
 - safeguarding the integrity and continuity of international competitions for one season;
 - encouraging the development of benchmarking for clubs throughout Europe in relation to the criteria provided for by the Manual.

3. Criteria

3.1 The criteria which the Licence applicant must comply with in order to obtain the Licence are divided into five categories:

- Sporting criteria;
- Infrastructure criteria;
- Personnel and Administrative criteria;
- Legal criteria;
- Economic-financial criteria.

3.2 The criteria of each category are classified according to three different grades which reflect their different nature:

a) **“A” Criteria:** Criteria marked by the letter “A” are binding for all Licence applicants. The non-fulfilment of only one of these criteria results in the refusal of the Licence.

b) **“B” Criteria:** Criteria marked by the letter “B” are binding for all Licence applicants. The non-submission or incomplete submission of documentation in relation to such criteria does not result in the refusal of the Licence.

Where a “B” criterion is not fulfilled, the Licensing and FFP Office, upon instructions of the First Instance Committee and in agreement with the relevant Expert, sends an official warning to the violating club, indicating a deadline within which the requirement must be fulfilled. Where, upon expiry of the deadline, the club has still not rectified the situation, the Licensing and FFP Office shall notify the First Instance Committee, which, having evaluated the gravity of the situation, may refer the club to the *Procura Federale* (Prosecutor of the FIGC) for its referral to the *Commissione Disciplinare* (Disciplinary Committee).

c) **“C” Criteria:** Criteria marked with the letter ‘C’ are best practice recommendations and their non-fulfilment does not result in any disciplinary action nor the refusal of the Licence.

4.2 The Licensing bodies are:

- The Licensing and FFP Office;

- 4.9** The members of the First Instance Committee and the Appeals Committee must be in a position of complete independence, autonomy and disjunction from the Licence applicants. They must act impartially in the discharge of their duties. A member of either Committee will not be considered to be independent, autonomous or disjunctive, if he or any relative or in-law within the fourth degree is an employee, member, shareholder, business partner, sponsor or consultant of a Licence applicant. The foregoing examples are illustrative and not exhaustive.

In any case, all members of the committees are obliged to declare any conflict of interest with a Licence applicant and must abstain from all discussions and votes relative to that same Licence applicant.

- 4.12** The First Instance Committee is composed of a President, a Vice President and by five other members. - 4.13** The First Instance Committee is summoned by the President and is validly constituted in the presence of at least five members, including the President or the Vice-President, as well as at least one of the members who has professional experience in sporting venues.

- 4.14** The decisions of the First Instance Committee are taken by the majority of the members present and have to be justified and in writing. In the case of an equal number of votes the President will have the casting vote.

Video and teleconference devices may be used for the meetings of the First Instance Committee.

- 4.15** The Appeals Committee is the body which passes judgement on appeals against the decisions to refuse or withdraw a Licence by the First Instance Committee.

The decision is based on the grounds for the decision of the First Instance Committee, the documentation submitted by the appealing club and the report prepared by each single Expert, in accordance with the deadlines and conditions provided by the *Regulation for Decision Making Procedures* (Appendix I).

- 4.16** The Appeals Committee is composed of a President, a Vice-President and by five other members. Among the members of the Appeals Committee, at least one must be registered in the *Albo degli avvocati* (Register of Certified Lawyers) with at least ten years professional experience, one must be registered in the *Ordine dei dottori commercialisti e degli esperti contabili* (Register of Certified Auditors) and one must be registered in the *Albo degli ingegneri o architetti* (Register of Chartered Engineers or Architects) and have specific professional experience in sporting venues.

- 4.17** The Appeals Committee is summoned by the President and is validly constituted in the presence of at least five members, including the President or the Vice-President, as well as at least one of the members who has professional experience in sporting venues.

- 4.18** The decisions of the Appeals Committee are taken by the majority of the members present and have to be justified and in writing. In the case of an equal number of votes the President will have the casting vote.

Video and teleconference devices may be used for the meetings of the Appeals Committee.

- 4.19** Any dispute regarding the refusal or withdrawal of the Licence, arising between the FIGC and a Licence applicant or Licensee, following the verdict of the Appeals Committee, shall be exclusively devolved for judgement by the *Organo Arbitrale delle Licenze UEFA*.

5. Obligations of the Licence applicants and examinations

- 5.1** The procedure provided for by the Manual in order to grant the Licence is based on declarations undersigned by the legal representative of the Licence applicant and the submission of documentation proving the fulfilment of determined requirements.

The Licence applicant is required to complete the forms and statements prepared by the Licensing and FFP Office.

- 5.2** Together with the submission of the Licence application, a declaration duly signed by the Licence applicant's legal representative, regarding the truthfulness and accuracy of the information, must be filed with the Licensing and FFP Office.

Furthermore, the Licensing and FFP Office may request the Licence applicant to produce additional documents to those already submitted or to perform specific interventions as indicated by the Experts in order to rectify possible non-fulfillments arising from the declarations and/or documentation submitted.

- 5.7** The Licensing bodies may use the services of the Co.Vi.So.C inspectors in relation to legal and economic-financial criteria.

- 5.9** The Licensing bodies which, during the course of the licensing procedure discover violations of FIGC regulations or disciplinary offences, connected to the violation of the provisions of the Manual, transmit the acts to the *Procura Federale* (Prosecutor of the FIGC) in order to take the actions deemed necessary.
- 5.10** The granting of the Licence does not exempt the Licensee from the obligation to fulfil the regulations of the relevant UEFA competitions.

The appeal must be sent by fax and by registered post with return of receipt, and must include the documentation demonstrating the grounds of appeal. Appeals to the Appeals Committee can be made by Licence applicants who were refused the Licence in the first instance, or by Licensees who have had their Licence withdrawn. Under no circumstances any club is allowed to appeal against the granting of the Licence to another club.

Compliance audits aim to ensure that the FIGC, as well as the Licence applicant/Licensee, have fulfilled their obligations as defined in UEFA Club Licensing and Financial Fair Play Regulations (Edition 2015) and that the Licence was correctly awarded at the time of the final decision of the FIGC.

7. Extraordinary Procedure

- 7.1 Where, by the deadline set and communicated annually by UEFA, there is still the possibility that one or more clubs not participating in the Serie A, who have not already applied for the Licence can still qualify for the UEFA Europa League via the *National Cup*, these clubs will be subject to an extraordinary procedure, on request of FIGC, for their possible admission into the UEFA Europa League, under the conditions outlined by the following articles.

Based on such an extraordinary procedure, UEFA may grant special permission to the club concerned to enter the UEFA Europa League, subject to the relevant UEFA club competition regulations. Such an extraordinary procedure only applies to the specific club and for the season in question.

- 7.2 By August 31 of the year preceding the Licence season, UEFA defines the minimum criteria to be fulfilled for the extraordinary procedure and communicates them to the FIGC.
- 7.3 By the deadline set by UEFA, the Licensing and FFP Office informs UEFA in writing of the clubs not participating in the Serie A that still have the possibility of qualifying for the UEFA Europa League.
- 7.4 UEFA fixes the deadlines of the procedure and communicates them to the FIGC.
- 7.5 The Licensing and FFP Office is responsible for informing the club(s) concerned of the criteria established by UEFA as well as the deadlines of the procedure.
- 7.6 The club concerned must submit the required documentation to the Licensing and FFP Office within the deadlines indicated by UEFA
- 7.7 The Licensing bodies examine the fulfilment of the established criteria by the club concerned and transmit the following documentation to UEFA within the deadlines that it has indicated:
- the request, undersigned by the legal representative of the club, to apply for the special permission in order to enter the UEFA Europa League;
 - the recommendation of the First Instance Committee regarding the fulfilment by the concerned club of the minimum criteria established by UEFA (indicating the date and the name of the members of the First Instance Committee that were involved in examining the documents);
 - the documentation produced by the club and/or the FIGC proving the fulfilment of the necessary requirements;
 - any further documentation requested by UEFA during the extraordinary procedure.

Upon request by UEFA, the aforementioned documentation will have to be transmitted in one of the UEFA official languages.

- 7.8 UEFA bases its decision on the recommendation expressed by the First Instance Committee and the documentation produced by the concerned club.
- 7.9 Should all the relevant criteria be fulfilled and the club ultimately qualifies on the basis of its sporting results, UEFA will grant a special permission allowing the club to participate in the UEFA Europa League.

UEFA's decision will be communicated to the FIGC, who is obliged to forward it to the concerned club.

- 7.10** The club may lodge an appeal against the decision of UEFA before the CAS in accordance with the relevant provisions indicated in the UEFA Statutes.
- 7.11** If a concerned club is eliminated from the *National Cup* during the extraordinary procedure, the FIGC is obliged to immediately notify UEFA of this, and the extraordinary procedure will be deemed to be automatically terminated and cannot be restarted at a later date.

F.01 A	<p>ANNUAL FINANCIAL STATEMENTS - AUDITED</p> <p>The Licence applicant must prepare Annual financial statements in accordance with the contents and principles established in the Manual. The Annual financial statements must be audited by an independent auditor registered in the register of legal auditors of the Ministry of Economy and Finance and which has performed an audit of a listed company or of a professional football club in the last three years and which meets the prescribed criteria of independence and disjunction.</p> <p>If the Annual financial statements do not meet the prescribed principles and requirements, the Licence applicant is obliged to supply supplementary documentation; such documentation must be prepared in line with the same principles and requirements indicated for the preparation of the Annual financial statements and must be subject to determined Agreed-upon procedures by the independent auditor.</p>	<p>Last Annual financial statements closed on 30 June or 31 December prior to the date of submission of the Licence application, accompanied by:</p> <ul style="list-style-type: none"> - A cash flow statement; - The Directors' Report; - The Supervisory Body's Report; - The Independent Auditor's Report; - Supplementary documentation (where necessary) and the relevant auditors' report.

14.4.1 General Principles

Due to the particular activity of football clubs and the provisions of Art. 2423 bis of the Italian Civil Code, the Annual financial statements must be prepared:

- in accordance with current civil law provisions and based upon the accounting principles established by the *Organismo Italiano di Contabilità*, or on the basis of international accounting standards;
- in conformity with the “*Piano dei Conti*” and the “*Schema di Bilancio*” approved by the FIGC;
- in accordance with the contents and principles established in the Manual.

The Annual financial statements must be prepared on the assumption that the Licence applicant is a going concern and that it has neither the intention nor the necessity to go into liquidation, or enter into bankruptcy and/or insolvency procedures.

The Annual financial statements must be approved by the Assembly and signed by the Legal Representative of the Licence applicant.

14.4.2 Reporting Period

The Licence applicant must submit the last Annual financial statements closed on 30 June or 31 December prior to the date of submission of the licence application.

14.4.3 Annual Financial Statements - Accompanied Documentation

The Annual financial statements, consisting of a balance sheet, a profit and loss account and notes to the financial statements, must be accompanied by:

- The Player Identification Table (Appendix VII)²;
- A cash flow statement;
- The Directors' Report³;
- The Supervisory Body's Report;
- The Independent Auditor's Report.

The following information must be clearly highlighted in the above documents:

- the name (and legal form), domicile and registered office of the Licence applicant and any possible changes from the preceding financial year;
- whether the economic-financial information refers to the individual Licence applicant, to a group of entities or to some other combination of entities, with the description of their structure and composition;
- the statutory closing date and the period covered by the economic-financial information (both current and comparative information); and
- the presentation currency.

² The table must include information relating to all players that have been registered with the Licence applicant at any moment during the relevant financial year and for those for which direct acquisition costs have been incurred (at some point in time in the reporting period or prior periods) and all players in respect of whom some income/profit (or loss) has been recognised (at some point in time in the reporting period). The table must be provided to the independent auditor.

³ The names of all the individuals that were components of the Board of Directors and the *Organismi di Controllo* (Supervisory Bodies) at any time during the relevant financial year must be indicated in the Directors' Report.

14.4.4 Consolidated Annual financial statements and consolidation perimeter

Where the Licence applicant exercises control over one or more companies, in accordance with Art. 2359 of the Italian Civil Code, it must prepare its own consolidated Annual financial statements. In such a case, the assessment of the fulfilment of the economic-financial criteria is based on the consolidated Annual financial statements. Even Licence applicants which would be exempt from such an obligation according to Art. 27 of the Legislative Decree 127/1991 must fulfil this obligation.

The consolidation perimeter must include:

- The Licence applicant;
- Any Subsidiary of the Licence applicant;
- Any other entity included in the legal group structure (as defined in criterion L.04) which generates revenues and/or performs services and/incurs costs in respect of the football activities listed below from point 3 to 10;
- Any entity, irrespective of whether it is included in the legal group structure (as defined in criterion L.04), which generates revenues and /or performs services and/or incurs costs in respect of the football activities listed below from point 1 to 2.

Football activities are:

- 1- Contractual and legal obligations towards employees (as defined in paragraph 14.7.1);
- 2- Acquiring/selling players' registrations (including loans);
- 3- Ticketing;
- 4- Sponsorship and advertising;
- 5- Broadcasting;
- 6- Merchandising and hospitality;
- 7- Club operations (e.g. administration, matchday activities, travel, scouting, etc.);
- 8- Financing (including financing secured against the assets of the Licence applicant);
- 9- Use and management of stadium and training facilities;
- 10- Youth sector.

An entity may be excluded from the consolidation perimeter only if:

- its activities are entirely unrelated to the football activities above listed and/or the locations, assets or brand of the football club;
- its activity is immaterial for the purpose of clarity of the consolidated financial statements compared with all the entities that form the consolidation perimeter and it does not perform any of the football activities defined above at point 1 and 2;
- the football activities it performs are already entirely reflected in the financial statements of one of the entities included in the consolidation perimeter (es. service contract).

The Licence applicant must submit a declaration by an authorised signatory which confirms:

- that all revenues and costs related to each of the football activities above listed have been included in the consolidation perimeter and provide a detailed explanation should this not be the case; and
- whether any entity included in the legal group structure has been excluded from the consolidation perimeter (as defined in criterion L.04), justifying in detail any such exclusion with reference to this article.

14.4.5 Cash Flow Statement

In the cash flow statement the cash flows for the financial year (compared to those of the preceding Annual financial statements), which determine the changes in cash and cash equivalents, must be classified in relation to the type or nature of the activity which generated them, as follows:

- operating activities;
- investing activities;
- financing activities.

The components of cash and cash equivalents must be disclosed and reconciled with the equivalent items reported in the balance sheet.

14.4.6 Player Registration Costs

The Licence applicant must fulfil the following requirements in relation to the accounting of *diritti pluriennali alle prestazioni dei calciatori* (player registration costs).

- Player registration costs must be capitalised. Only costs of acquiring a player's registration, including training compensation and solidarity contribution in accordance to the FIFA Regulations for the Status and Transfer of Players, and other direct costs (e.g. fees to Agents/intermediaries and transfer fee levy) can be capitalised. The carrying amount of an individual player must not be re-valued upwards and must not include players raised in the youth sector.
- The depreciable amount must be allocated in equal annual instalments over the period of the player's contract. The financial year in which the amortisation begins is the one in which the player is registered. For registrations acquired during the financial year the amortisation begins at the date of the player's registration using the *pro-rata temporis* method. The original amortisation plan sustains the modifications resulting from the extension of the contract following its possible anticipated renewal. The new amortisation plan, on a systematic basis, must take into account the net accounting value of the registration at the date of the contract extension and of its new duration. Amortisation ceases at the date when the asset is derecognised.
- All capitalised player values must be reviewed each year (test for impairment). If the recoverable amount for one or more players is enduringly lower than the carrying amount on the balance sheet, the carrying amount must be adjusted to the recoverable amount and the adjustment charged to the profit and loss account as an impairment cost.

If this accounting requirement is not respected, the Licence applicant must prepare and submit supplementary documentation to the Licensing and FFP Office, comprehensive of:

- A restated balance sheet, profit and loss account and any associated notes in order to meet the requirements set out above;
- An explanatory note which illustrates the reconciliation of the amounts.

Such supplementary documentation must be assessed by the independent auditor by way of Agreed-upon procedures.

14.4.7 Agents/intermediaries fees

Fees paid and in any case all financial commitments regarding Agents/intermediaries must be clearly shown and illustrated in the Explanatory Notes.

14.4.8 Activities with Related Parties

A related party transaction is a transfer of resources, services or obligations between Related parties, regardless of whether a price has been charged.

In the balance sheet, profit and loss account and cash flow statement, the amount of the Related party transactions must be separately indicated from the relevant items. Such indications may be omitted for individual items if their presentation is not significant to the understanding of the financial and patrimonial situation, economic result and financial flows of the Licence applicant and/or group.

In the notes to the Annual financial statements, information must be supplied in relation to the incidence that the activities or positions with Related parties have on the financial and patrimonial situation, economic result and financial flows of the licence applicant and/or group. The information relative to the Related parties and the relationships with them must be accompanied by a table summarising their effects.

Among this information, the following must be indicated:

- the amount and nature of the transaction;
- the amount of the credit or debit balances, with the indication of the conditions and eventual collateral guarantees;
- the ability to recover possible credits from Related parties;
- provisions for doubtful debts related to the amount of outstanding balances;
- the expense recognised during the period in respect of bad or doubtful debts due from Related parties.

In the notes to the Annual financial statements must be separately disclosed information regarding the following Related parties:

- the parent/s;
- entity with Joint control or Significant influence over the reporting entity;
- subsidiaries;
- Associates;
- Joint ventures in which the reporting entity is a venturer;
- Key management personnel of the entity or its parent;
- other Related parties.

The notes to the Annual financial statements must contain a confirmation that related party transactions were made on terms equivalent to those that prevail in arm's length transactions if such terms can be substantiated.

14.4.9 Assessment Procedures

The Annual financial statements must be audited by an independent auditor registered in the special register of the Ministry of Economy and Finance and which has performed an audit of a listed company or of a professional football club in the last three years. The audit must be performed in accordance with the auditing principles and criteria established by the Consob.

The Independent Auditor's Report must be prepared according to the model provided for by the Consob; in particular, it must include a paragraph in which the scope and nature of the audit are described.

The Independent Auditor's Report must clearly express an opinion on the Annual financial statements taken as a whole including the accompanying documentation (for example, the cash flow statement and Player Identification Table).

Where a Licence applicant is required to prepare supplementary documentation due to the Annual financial statements not fulfilling the principles and requirements of the Manual, this ulterior documentation must also be submitted to the same independent auditor who audited the Annual financial statements. In this case, the assessment by the independent auditor must be expressed on the basis of Agreed-upon procedures in accordance with the international standard ISRS 4400 (*International Standard on Related Services*) and the auditor's report must:

- include a statement confirming that the audit was conducted in accordance with the aforementioned international standards;
- be submitted to the Licensing and FFP Office together with the relative documentation.

The Agreed-upon procedures must, as a minimum, include:

- the analysis of the supplementary documentation supplied by the Licence applicant;
- the request for clarifications;
- the reconciliation of the amounts with the audited Annual financial statements;
- substantial controls and comparisons with the sources from which the information was obtained.

14.4.10 The Decision

The Licence must not be granted if:

- A)** within the peremptory deadline fixed by the Licensing and FFP Office, the Licence applicant does not submit the Annual financial statements accompanied by the documents specified at Art. 14.4.3 of the Manual;
- B)** the documents specified at Art. 14.4.3 of the Manual do not fulfil the principles and requirements for the content and accounting prescribed by the Manual;
- C)** the consolidation perimeter is not defined as per art. 14.4.4..
- D)** the auditor's report or any other document discloses the situation defined as per Art. 14.8.2 lett.D.

In view of the independent auditor's report, the First Instance Committee, evaluates the granting of the Licence, taking into account the following aspects:

- E)** if the independent auditor's report has an unqualified opinion the Licence may be granted;
- F)** if the independent auditor's report has an adverse opinion or a disclaimer of opinion, the Licence cannot be granted; where such a disclaimer of opinion is determined by contingent factors which are subsequently overcome, the Licence applicant can submit, within the deadline for the Licence issue decision on the part of the Appeals Committee, a subsequent independent auditor's report relative to the same financial year.

ITALIAN CLUB LICENSING MANUAL - EDITION 2015

- G)** if the independent auditor's report has a qualified 'except for' opinion or emphasis of matter in respect of going concern, the Licence cannot be granted, unless the Licence applicant submits within the deadline for the Licence issue decision on the part of the Appeals Committee:
- a subsequent independent auditor's report without a qualified 'except for' opinion or emphasis of matter in respect of going concern relative to the same financial year; or
 - additional documentary evidence demonstrating, in the opinion of the First Instance Committee, the Licence applicant's ability to guarantee it can continue as a going concern until at least the end of the Licence season (e.g. Budgets).
- H)** if the independent auditor's report has a qualified 'except for' opinion or emphasis of matter in respect of a matter other than going concern, the First Instance Committee must consider the implications of such aspects in relation to the granting of the Licence. The Licence may be refused, unless additional documentary evidence related to the relevant modifications is presented by the Licence applicant, which is positively evaluated by the First Instance Committee.
- I)** if the independent auditor's report, as a result of the Agreed-upon procedures, highlights the presence of errors or incorrect information in the supplementary documentation, the Licence may be refused.

14.5 INTERIM FINANCIAL STATEMENTS

Criterion and grade	Description	Declarations and documents
F.02 A	<p>FINANCIAL STATEMENTS FOR THE INTERIM PERIOD - REVIEWED</p> <p>The Licence applicant must prepare interim financial statements covering the period from 1 July to 31 December of the financial year underway at the moment of applying for the Licence.</p> <p>Only in the case of Annual financial statements (as per criterion F.01) closed less than six months before the deadline for submission of the list of licensing decisions to UEFA, in accordance with Art. 6.10 of the Manual, the Licence applicant will not be obliged to submit interim financial statements (e.g. statutory closing date of 31 December).</p> <p>The interim financial statements must be the subject of a limited review by an independent auditor registered in the register of legal auditors of the Ministry of Economy and Finance and which has performed an audit of a listed company or of a professional football club in the last three years and which meets the prescribed criteria of independence and disjunction.</p> <p>If the Interim financial statements do not meet the prescribed principles and requirements, the Licence applicant is obliged to supply supplementary documentation; such documentation must be prepared in line with the same principles and requirements indicated for the preparation of the Interim financial statements and must be subject to determined Agreed-upon procedures by the independent auditor.</p>	<p>Interim financial statements in relation to the period from 1 July to 31 December of the financial year underway at the moment of applying for the Licence, comprising a balance sheet, a profit and loss account for the interim period, a cash flow statement and notes to the interim financial statements, drafted by the administrative body, accompanied by a succinct Directors' Report and the Independent Auditor's Report as well as the supplementary documentation (where applicable) and the relevant Auditor's Report.</p>

14.5.1 General Principles

The interim financial statements must fulfil the same principles and requirements for the content and accounting prescribed for the preparation of the Annual financial statements (criterion F.01), bearing in mind, with regard to economic aspects, the criteria of strict periodic competence and *pro-rata temporis*; it must also be the subject of a limited review by an independent auditor registered in the register of legal auditors of the Ministry of Economy and Finance and which has performed an audit of a listed company or of a professional football club in the last three years and which meets the prescribed criteria of independence and disjunction.

The Licence applicant must prepare consolidated interim financial statements if the conditions indicated in Art. 14.4.4 of the Manual are applicable.

The interim financial statements must consist of:

- A balance sheet (with the indication of comparative figures resulting from the preceding full financial statements);
- A profit and loss account for the interim period (with the indication of comparative figures resulting from the preceding interim financial statements);
- A cash flow statement (with the indication of comparative figures resulting from the preceding interim financial statements);
- Notes to the interim financial statements.

The interim financial statements must also be accompanied by:

- A succinct Directors' Report;
- The Independent Auditor's Report.

The independent auditor should be the same one who carried out the audit of the Annual financial statements.

If the Licence applicant did not have to prepare interim financial statements for the comparable interim period of the immediately preceding financial year, comparative figures may refer to the figures from the Annual financial statements of the immediately preceding full financial year.

The following information must be clearly highlighted in the above documents:

- the name (and legal form), domicile and registered office of the Licence applicant and any possible changes from the preceding financial year;
- whether the economic-financial information refers to the individual Licence applicant, to a group of entities or to some other combination of entities, with the description of their structure and composition;
- the interim financial reporting date and the interim period covered by the economic-financial information; and
- the presentation currency.

14.5.2 Assessment Procedure

The interim financial statements must be the subject of a limited review by an independent auditor registered in the register of legal auditors of the Ministry of Economy and Finance and which has performed an audit of a listed company or of a professional football club in the last three years and which meets the prescribed criteria of independence and disjunction. The limited review must be performed in accordance with the principles and criteria established by the Consob.

The Independent Auditor's Report must be prepared according to the model provided for by the Consob; in particular, it must include a paragraph in which the scope and nature of the limited review are described.

The Independent Auditor's Review Report must clearly indicate the outcome of the work undertaken on the basis of the above-mentioned requirements.

14.5.3 The Decision

With reference to Licence applicants who are obliged to submit interim financial statements in accordance with criterion F.02, the Licence cannot be granted if:

- A)** the Licence applicant does not submit the interim financial statements and relevant accompanying documentation, within the peremptory deadline fixed by the Licensing and FFP Office;
- B)** the documents at letter A) do not fulfil the principles and requirements for the content and accounting prescribed by the Manual;
- C)** the consolidation perimeter is not defined as per art. 14.4.4..

ITALIAN CLUB LICENSING MANUAL - EDITION 2015

D) the auditor's review report or any other document discloses the situation defined as per Art. 14.8.2 lett.D.

In view of the independent auditor's review report, the First Instance Committee evaluates the granting of the Licence, taking into account the following aspects:

- E)** if the independent auditor's review report expresses that significant elements have not emerged that would require amendments or integrations to the interim financial statements and the relative explanatory notes and integrations (negative assurance), the Licence may be granted;
- F)** if the independent auditor's review report disclaims a conclusion or gives an adverse conclusion, the Licence cannot be granted; where such a disclaimer of conclusion is determined by contingent factors which are subsequently overcome, the Licence applicant can submit, within the deadline for the Licence issue decision on the part of the Appeals Committee, a subsequent independent auditor's report relative to the same period;
- G)** if the independent auditor's review report expresses a qualified conclusion or an emphasis of matter in respect of going concern, the Licence cannot be granted, unless the Licence applicant submits, within the deadline for the Licence issue decision on the part of the Appeals Committee:
- a subsequent independent auditor's review report without a qualified 'except for' conclusion or emphasis of matter in respect of going concern relative to the same period; or
 - additional documentary evidence that demonstrates, in the opinion of the First Instance Committee, the Licence applicant's ability to guarantee it can continue as a going concern until at least the end of the Licence season.
- H)** if the independent auditor's review report has a qualified conclusion or an emphasis of matter in respect of a matter other than going concern, the First Instance Committee must consider the implications of such aspects in relation to the granting of the Licence. The First Instance Committee may decide not to grant the Licence, unless additional documentary evidence related to the relevant modifications is presented by the Licence applicant, which is positively evaluated by the First Instance Committee.
- I)** if the independent auditor's report, as a result of the Agreed-upon procedures, highlights the presence of errors or incorrect information in the supplementary documentation, the Licence may be refused.

Where the interim financial statements are subjected to a full audit by an independent auditor and not just a limited review, the First Instance Committee evaluates the granting of the Licence in view of the aspects at letters E, F, G and H of Art.14.4.10 of the Manual.

14.6.1 Table of international transfer activities

The Licence applicant must prepare a table summarising international transfer activities occurred up to 31 December preceding the Licence season. It must be prepared even if there have been no transfers/loans during the relevant period.

In accordance to the FIFA Regulations for the Status and Transfer of Players, payables arising from international transfer activities include solidarity mechanism and training compensation payments and all conditional amounts, dependent on the occurrence of certain conditions (e.g. bonuses).

In the table must be separately disclosed:

- All player transfers (acquisition or loan) from foreign federations occurred at any time during the reporting period irrespective of whether or not there is a payable towards other football clubs;
- All player transfers from foreign federations for which, as at 31 December, there is a payable towards other football clubs;

- amounts subject to dispute/claim/proceeding.

The total payables resulting from the table must be reconciled with the figure in the Annual financial statement item (or in the interim financial statement item, if applicable), "Accounts payable relating to international player transfers".

All payables arising from international transfer activities must be inserted in the table, even if the creditor has never requested their payment.

Such table must be approved and undersigned by the Licence applicant's legal representative and supervisory body.

14.6.2 Assessment Procedure

The examination of the documentation proving the fulfilment of criterion F.03 is directly performed by the Licensing bodies.

The league to which the Licence applicant belongs testifies in writing to the Licensing and FFP Office the settlement of payables (conditional and unconditional) relative to national transfer activities, also by virtue of its clearing house system.

14.6.3 The Decision

The Licence cannot be granted if:

- A) the documentation proving that there are no payables overdue arising from transfer activities is not transmitted to the Licensing and FFP Office within the peremptory deadline;
- B) the documentation at letter A) does not fulfil the minimum requirements prescribed by the Manual;
- C) the Licence applicant, as at 31 March preceding the Licence season, has payables overdue towards football clubs (including *solidarity mechanism* and *training compensation* payments and conditional amounts) arising from transfer activities occurred prior to the previous 31 December.

If a Licence applicant finds itself in the situation of letter C) above, the Licence may still be granted provided that the Licence applicant proves by and no later than the 31 March that:

- a) it has paid, by not later than the peremptory deadline of 31 March, the relevant amount in full, or
- b) has concluded, by not later than the peremptory deadline of 31 March, a written agreement with the creditor to extend the payment deadlines for the overdue payable⁴ beyond the 31 March, or

- e) with regard to payables related to solidarity contributions and training compensation (as defined in the FIFA Regulations on the Status and Transfer of Players), it is able to demonstrate that it has taken, by not later than the peremptory deadline of 31 March, all the reasonable measures to identify and pay the creditor.

The obvious groundlessness of the legal claims and/or of the contestations or objections as per lett. c), d) and/or the proactivity as per lett. e) are assessed by the First Instance Committee and/or by the Appeals Committee on the basis of the arguments brought from the Licence applicant.

⁴ If the creditor has not requested payment of an overdue payable, this is not considered as an extension of the deadline for payment.

14.7 NO PAYABLES OVERDUE TOWARDS EMPLOYEES AND SOCIAL / TAX AUTHORITIES

14.7.2 Summary of Employees

The Licence applicant must prepare a list containing the indication of all *employees* who are employed or have been employed by the Licence applicant at any time during the year, and therefore up until 31 December preceding the Licence season. The Licence applicant must prepare a table showing the amount payable in relation to tax deductions and *INPS* contributions (social security taxes) relative to Contractual and legal obligations due towards *employees* as at 31 December (inclusive) preceding the Licence season. The table must also disclose any amount related to tax deductions and *INPS* contributions subject to dispute/claim/proceeding.

The table must include the following information:

- Name of the creditor;
- Any payables as at 31 December (including the due date for each unpaid element);
- Any payables as at 31 March, rolled forward from 31 December, with details of due date(s) and explanatory notes;
- Any amount subject to dispute/claim/proceeding;
- All supporting evidence in respect of the above payables.

The total liability resulting from the table must be reconciled with the figure resulting from the Annual Financial Statements (or Interim Financial Statements, where applicable) or from underlying accounting records.

Such table must be approved and undersigned by the Licence applicant's legal representative and supervisory body and must be submitted both to the Licensing and FFP Office and to the auditor appointed by FIGC as per Art. 14.7.4.

14.7.4 Assessment Procedure

The documentation proving the fulfilment of criterion F.04, with the exception of the provisions of letter c) of art. 14.7.1 of the Manual, is examined by an independent auditor appointed by FIGC. To this end, the Licence applicant must provide the auditor with the documentation requested by the auditor itself to perform the assessment.

The auditor's report of factual findings must include a statement confirming that the assessment was conducted by way of Agreed-upon procedures according to ISRS 4400.

The payment of Contractual and legal obligations due towards *employees* referred to at letter c) of Art. 14.7.1 of the Manual, is testified by the Licence applicant by virtue of the copy of the relative contracts and the appropriate documentation that proves the payment.

14.7.5 The Decision

The Licence cannot be granted if:

- A)** the documentation proving that there are no payables overdue from Contractual and legal obligations due towards *employees* and the relative tax deductions and *INPS* contributions (social security taxes) is not transmitted to the Licensing and FFP Office within the peremptory deadline;
- B)** the documents at letter A) do not fulfil the minimum requirements prescribed by the Manual;
- C)** the Licence applicant has overdue payables arising from the payment of Contractual and legal obligations due towards *employees* as at 31 December (inclusive) preceding the Licence season.

If the Licence applicant finds itself in the situation of letter C) the Licence can nevertheless be granted provided that the Licence applicant demonstrates that:

ITALIAN CLUB LICENSING MANUAL - EDITION 2015

- a) it has paid, by and no later than the peremptory deadline of 31 March, the relevant amount in full, or
- b) it has contested, by and no later than the peremptory deadline of 31 March, a claim or a proceeding opened against it by a creditor in respect of overdue payables, contesting the grounds of the claim, presenting arguments which are not obviously unfounded, or
- c) it has brought, by and no later than the peremptory deadline of 31 March, a legal claim or has opened proceedings, which are not obviously unfounded, before administrative, jurisdictional or arbitral bodies of the state or of national or international sporting authorities with regard to the overdue payable.

The obvious groundlessness of the legal claims and/or of the contestations or objections as per lett. b), c) is assessed by the First Instance Committee and/or by the Appeals Committee on the basis of the arguments brought from the Licence applicant.

- D)** the Licence applicant has overdue payables arising from tax deductions and *INPS* contributions (social security taxes) in relation to Contractual and legal obligations due towards *employees* as at 31 December (inclusive) preceding the Licence season.

If the Licence applicant finds itself in the situation of letter D) the Licence can nevertheless be granted provided that the Licence applicant demonstrates that:

- a) it has paid, by and no later than the peremptory deadline of 31 March, the relevant amount in full, or
- b) it has concluded, by and no later than the peremptory deadline of 31 March, a written agreement with the creditor to extend the payment deadlines for the overdue payable⁵ beyond the 31 March, or
- c) it has contested, by and no later than the peremptory deadline of 31 March, a claim or a proceeding opened against it by a creditor in respect of overdue payables, contesting the grounds of the claim, presenting arguments which are not obviously unfounded, or
- d) it has brought, by and no later than the peremptory deadline of 31 March, a legal claim or has opened proceedings, which are not obviously unfounded, before administrative, jurisdictional or arbitral bodies of the state or of national or international sporting authorities with regard to the overdue payable.

The obvious groundlessness of the legal claims and/or of the contestations or objections as per lett. c), d) is assessed by the First Instance Committee and/or by the Appeals Committee on the basis of the arguments brought from the Licence applicant.

⁵ If the creditor has not requested payment of an overdue payable, this is not considered as an extension of the deadline for payment.

14.8 WRITTEN REPRESENTATIONS PRIOR TO THE LICENSING DECISION

Criterion and grade	Description	Declarations and documents
F.05 A	WRITTEN REPRESENTATIONS PRIOR TO THE LICENSING DECISION	
	<p>Within seven days prior to the period in which the First Instance Committee convenes to deliberate, the Licence applicant is obliged to transmit a declaration to the Licensing and FFP Office in which it testifies that:</p> <ul style="list-style-type: none"> a) all documents submitted to the Licensing and FFP Office are complete and correct; b) no significant changes have occurred in relation to all the requirements provided for by the Manual; c) from its statutory closing date (or from the interim financial closing date, if applicable), no Events or conditions of major economic importance have occurred that may have an adverse impact on the economic, patrimonial and financial situation of the Licence applicant⁶. ITALIAN CLUB LICENSING MANUAL - EDITION 2015

- B)** based on the information contained in the declaration, any significant change in relation to all the requirements provided for by the Manual has occurred;

FUTURE ECONOMIC-FINANCIAL INFORMATION

14.9 FUTURE ECONOMIC-FINANCIAL INFORMATION

Criterion and grade	Description	Declarations and documents
F.06 A	<p>FUTURE ECONOMIC-FINANCIAL INFORMATION</p> <p>The Licence applicant must prepare, by 30 June of the year preceding the date of submission of the Licence application, future economic-financial information (budget) covering the 12 month period commencing from 1 July to 30 June of the following year.</p> <p>The budgets must be prepared in conformity with the principles and requirements prescribed in the Manual and must be based on assumptions that are not obviously unfounded.</p>	<p>A budgeted profit and loss account;</p> <p>A budgeted balance sheet;</p> <p>A budgeted cash flow statement;</p> <p>Explanatory notes including assumptions, risks and methods for covering possible borrowing requirements.</p>

14.9.1 General Principles

As prescribed for criterion F.01, if the conditions indicated in Art. 14.4.4 of the Manual are applicable, the budgets and the final reports must be related to the group contained in the consolidation perimeter.

14.9.2 Reporting Period

The club must submit to the Licencing Office, by 30 June of the year preceding the date of submission of the Licence application, future economic-financial information (budget) covering the 12-month period from 1 July to 30 June of the following year.

The budgets must be prepared on a quarterly basis.

14.9.3 Minimum requirements and content of the future economic-financial information

The future economic-financial information, to be submitted by 30 June of the year preceding the date of submission of the Licence application, must include the following documents:

- a budgeted profit and loss account;
- a budgeted balance sheet;
- a budgeted cash flow statement;
- explanatory notes including assumptions, risks and methods for covering possible borrowing requirements.

The budgets must include a comparative profit and loss account, balance sheet and cash flow statement for the immediately preceding financial year and interim period (if applicable).

The following information must be clearly highlighted in the above documents:

- the name (and legal form), domicile and registered office of the Licence applicant and any possible changes from the preceding financial year;
- whether the financial information refers to the individual Licence applicant, to a group of entities or to some other combination of entities, with the description of their structure and composition;

The budgets must be based on assumptions that are not obviously unfounded, and must conform to the same principles and minimum accounting and content requirements prescribed for the preparation of the Annual financial statements (criterion F.01).

In preparing the budgets the instructions of the "*Guida al Budget*", drafted by Co.Vi.So.C., must be followed and the same accounting requirements implemented for the preparation of the Annual financial statements must be applied, except for accounting policy changes which have been made after the statutory closing date of the last Annual financial statements and which are to be reflected in the next Annual financial statements. The details of the changes must be disclosed.

14.9.4 Indicators

Historical economic-financial information provided by the Licence applicant may show up potential risk situations relating to economic and financial trends and to the prospects of the Licence applicant as a going concern.

To investigate such risk situations Licensing Bodies use the following indicators:

Indicator no. 1 (IND. 01)

- The independent auditor's report on the Annual financial statements or Interim financial statement presents a qualified "except for" opinion/conclusion or an emphasis of matter in respect of going concern.

Indicator no. 2 (IND. 02)

- The Annual financial statements or the Interim financial statements, presented in accordance with criteria F.01 and F.02 of the Manual, disclose a net liabilities position that has deteriorated relative to the comparative figure contained in the previous Annual financial statements.

If the Licence applicant falls into one of the situations described by the indicators, Licensing Bodies will undertake a more detailed assessment, and may request additional documentation, including for example an updated version of the budgets and or the anticipated submission of the budgets for the next National sporting season.

14.9.5 Assessment Procedure

The assessment procedures are directly performed by the Licensing bodies and must include:

- the check of the arithmetic accuracy of the budgets;
- the check, through discussions with management and the examination of the documents, that the budgets have been prepared based on the assumptions and the risks indicated by the Licence applicant and that they do not present elements that are obviously unfounded or that are expressly over optimistic;
- the check that the opening balances contained within the budgets are consistent with the items reported in the last Annual financial statements or in the interim financial statements, if applicable; and
- the check that the budgets have been approved and undersigned by the Licence applicant's legal representative and supervisory body;
- the examination of the corresponding supporting documents (e.g. agreements with sponsor, share capital increase, minutes of the board, etc.).

14.9.6 The Decision

The Licence cannot be issued if:

- A) the Licence applicant fails to deposit within the peremptory deadline fixed by the Licensing and FFP Office, all the documents required by criterion F.06.
- B) on the basis of the historic and future economic-financial information supplied by the Licence applicant, the First Instance Committee considers that the Licence applicant is not able to meet its financial commitments as they fall due and is not able to continue as a going concern, until at least the end of the Licence season.

PREAMBLE

In conformity with the provisions of criterion I.01 A of the Manual, Licence applicants must demonstrate the availability of a Stadium certified in accordance with the “UEFA Stadium Infrastructure Regulations” (Edition 2010), as well as fulfilling the infrastructure requirements of this appendix in order to be granted the Licence. The Stadium must also be declared structurally compliant by the competent authorities for hosting games of the national championship in which the club participates.

In particular, the “UEFA Stadium Infrastructure Regulations” (Edition 2010) classify stadia into four categories: UEFA category 1, 2, 3 or 4 (in ascending rank order). The FIGC is responsible for evaluating and classifying the stadia; such evaluations are subject to the approval of UEFA with its decision being final and binding.

Before the start of the sporting season, UEFA publishes its club competition regulations in which the category of Stadium required for all matches in each competition is specified (e.g. Group stage of the UEFA Europa League → category 4).

This appendix contains the minimum infrastructure requirements that must be fulfilled, in addition to the provisions of the “UEFA Stadium Infrastructure Regulations” (Edition 2010), in order for the Licence to be granted. The “UEFA Stadium Infrastructure Regulations” (Edition 2010) shall always prevail in the event that the content of this appendix contradicts a provision contained in the “UEFA Stadium Infrastructure Regulations” (Edition 2010). The additional requirements in italics are necessary in order for a Stadium to be classified as category 4 but not essential for the granting of the Licence.

Art. 1 Field of play - dimensions and playing surface

The field of play must be rectangular with dimensions of 105 x 68 m (measured from the outside edge of the boundary lines).

A verge with a width of 1.5 m, known as "*campo per destinazione*", must surround the field of play; it must be level with the field of play and be free from obstacles.

The minimum distance between fixed obstacles (e.g. boundary walls, railings, advertising boards etc.) and the field of play must be 2.5 m from the touchlines and 3.5 m from the goal lines.

A warm-up area for substitutes must be made available along the touchlines or behind the advertising boards behind the goal.

The field of play and the "*campo per destinazione*" must be:

- a natural playing surface or a latest generation artificial surface that has been granted the required FIFA licence by a FIFA-accredited laboratory;
- smooth and level;
- green with white markings;
- in good condition;
- equipped with a suitable drainage system;
- endowed with an appropriate irrigation system ensuring as even a distribution of water as possible;
- endowed with pitch heating systems or similar systems to protect against frost and ice, making pitches playable throughout the season.

Natural playing surfaces must in any case be endowed with adequate rain-protection systems (e.g. canvas sheeting).

No object can be located less than 21m above the field of play.

Art. 2 Goals and spare goal

The goalposts and crossbars of each goal must be made out of aluminium, steel or alloy and must be round or elliptical.

The following requirements must be satisfied:

The bench for the fourth official must be positioned in the vicinity of the halfway line and at approximately five metres from the touchline.

Art. 5 Advertising boards

Advertising boards must comply with the following indications:

The route from the dressing-rooms to the playing area must be made of, or covered by non-slippery floors.

Spectators and the media must have no possibility to access such route.

⁷ From the UEFA Champions League group stage onwards, an average vertical illuminance level ($E_{v,med}$) of 1.500 lux towards fixed camera positions is required. All the entrances, exits and stairways in the spectator areas must be clearly distinguished, preferably painted in fluorescent yellow, including the gates leading from the spectator area to the playing area and all exit doors and gates leading out of the Stadium.

All the exit doors and gates leading out of the Stadium, including those leading from the spectator area to the playing area, must open outwards and must remain unlocked while spectators are in the Stadium. In order to prevent unauthorised entry or intrusion, such entrances must be fitted with a locking device which may be operated simply and quickly by specifically designated and trained personnel.

In addition, the Stadium regulations and large scale wall maps must be displayed internally and externally so that they can clearly legible by spectators.

All signposting must be in internationally understandable sign language.

Such facilities must be approved by the competent local authorities.

Art. 28 Control room

The control room must be big enough to accommodate the members of the *Gruppo Operativo della Sicurezza - GOS* (Safety Operation Group), as well as technicians responsible for operating the CCTV system.

Art. 29 Closed-circuit television system

The Stadium must be equipped with a closed-circuit television system (CCTV) for spectator areas both inside and outside the Stadium which has been approved by the competent local authorities.

In particular, the system must be located in the control room and have colour monitors and the in-built facility to take still pictures.

Art. 30 Media working area

Additional category 4 requirement:

This platform must be able to accommodate 4 cameras.

Art. 32 TV studios

The Stadium must be equipped with at least 2 TV studios with the following minimum characteristics: 5 m long x 5 m wide x 2.3 m high.

Additional category 4 requirement:

At least one of the TV studios must have a view of the field of play.

There must also be a space for at least 4 flash interview positions, each measuring at least 2.5m long x 2.5m wide.

The OB Van Area must be located as close as possible to the Stadium, ideally on the same side as the main camera platform, on even and solid ground, and with a power supply available.

Art. 36 Security Maintenance Plan

A Security Maintenance Plan must be drawn up and activated for the Stadium in question and it must be drafted in accordance with the Ministerial Decree of 18/03/1996 and subsequent integrations and/or legislative amendments.

This plan must contain any restrictions imposed by the *Commissione provinciale di vigilanza sui locali di pubblico spettacolo - CPVLPS* (the competent public authority) and it must be distributed among the *Gruppo Operativo della Sicurezza - GOS* (Safety Operation Group).

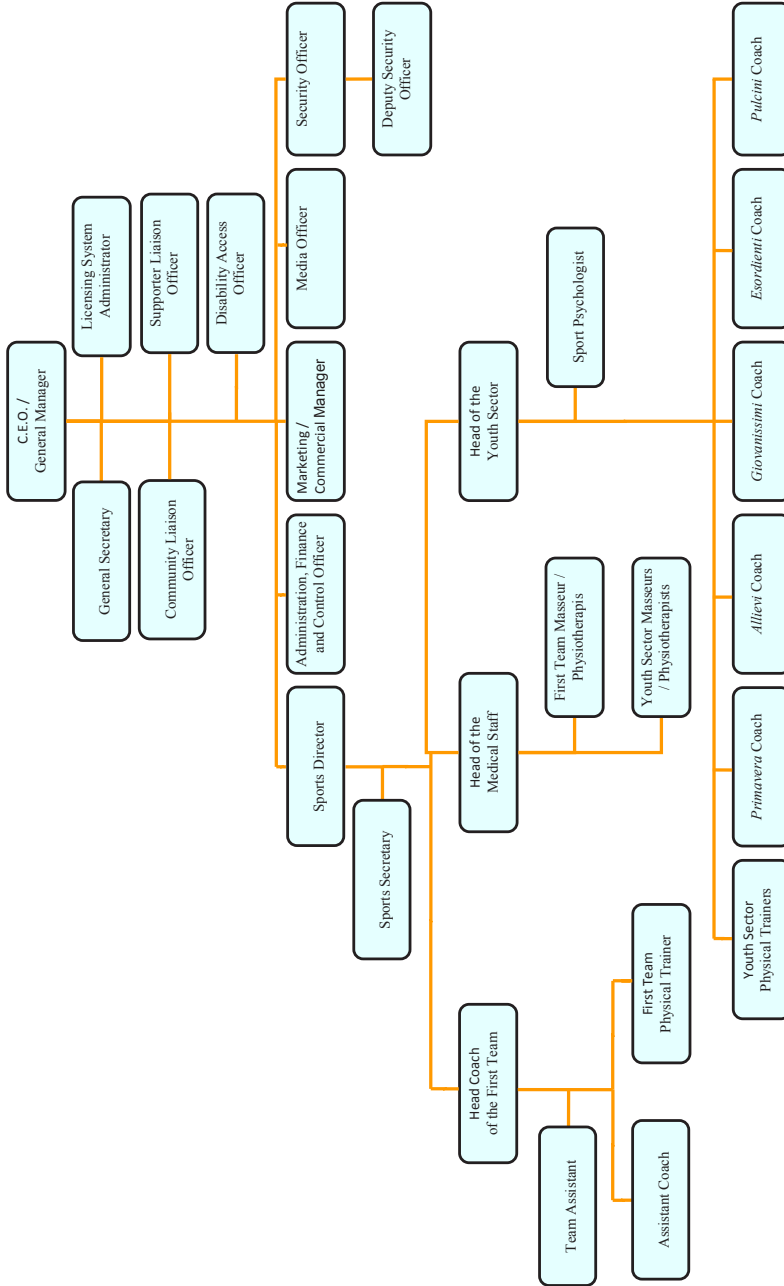

- First and second level hierarchies: in the attached example, the Physical Trainer of the First Team reports to the Head Coach of the First Team, who in turn reports to the Sports Director (first level hierarchy). It is obvious that the Physical Trainer of the First Team also reports to the Sports Director (second level hierarchy), but it is not necessary for there to be a line of hierarchy between these roles.
- Hierarchical and functional relationships: in the attached example, the Physical Trainer of the First Team reports hierarchically to the Head Coach of the First Team, but it is highly likely that he will have a so-called “functional” relationship with the Head of the Medical Staff. The functional relationship indicates the point of reference for a given competency, in this case medical support.

In the organisational chart the cell (rectangle) of the Physical Trainer of the First Team could also have been inserted as a hierarchical relationship with the Head of the Medical Staff (in this case the functional and hierarchical relationships coincide), meaning that either way would have been correct.

Where the organisational chart only defines hierarchical relationships, it is not necessary to insert double lines in order to define hierarchical and functional subordination.

- The organisational chart and coordination mechanisms: the organisational chart is a graphical representation of the organisational structure, but not of the mechanisms of coordination, i.e. how various units operate together: teams, groups, committees, task forces, etc.
- Multi-level organisational charts: in order to simplify the drafting of the organisational charts it is possible to provide a primary organisational chart, so-called first level (sheet no. 1) with the first relationships of the General Manager or C.E.O.. Other organisational charts (sheet no. 2, 3, 4, etc.) are necessary to illustrate the first level organisational units (e.g. organisational units - youth sector, marketing and commercial, safety and security, etc.). This suggestion is essentially from a graphical point of view.
- External companies: in the case of external companies, the name of the company must be inserted in the cell, together with the name of the person responsible for the project, and a dotted line must be used in order to indicate the relationship of supply rather than subordination. E.g. Marketing Manager, Marketing S.p.A. - Mario Rossi.
- The Manual: all the roles provided for by the Manual must be included in the organisational chart.
